EDUCATION

We are a Great Commission church. As a global community of faith, we are commissioned to **TAKE THE GOOD NEWS OF LIFE IN JESUS CHRIST** to people everywhere and to spread the message of scriptural holiness across lands.

Our message is strongest when it is beautiful, clear, and consistent. This style guide explains how we can all work together to visually represent the Church of the Nazarene.

- Dove and flame: symbolizes our vision to transform people, communities, and nations
- Open Bible: symbolizes our core values—we are Christian, we are holiness, and we are missional

The logo must be gray or white.

GRADIENTS

Gradients should be at a 45 or 135 degree angle.

When gradients overlap a photo, the “multiply” transparency blending mode is typically used.

DESIGN ELEMENTS

Reoccurring design elements:

- gradient bars
- gradient circles
- square grid
- world map
- thin outlines
- lines
- light textured background
- white space

Emphasized phrases or titles progress from a light to bold font weight.

When shapes overlap a photo, the “multiply” transparency blending mode is typically used.

Include a generous amount of white space. Avoid crowding designs with too many words or design elements.

Backgrounds are generally light in color. Dark colors are reserved for smaller, emphasized elements.

Overall, our designs should represent people of all nations and inspire feelings of hope.

THY
KINGDOM
COME

Nazarenes are becoming a sent people—into homes, work places, communities, and villages, as well as other cities and countries. Missionaries are now sent from all regions of the world. God continues calling ordinary people to do extraordinary things made possible by the person of the Holy Spirit.

PHOTOGRAPHY

The photos we use represent relatable people from all nations with authentic expressions.

Direct eye contact and a smile is ideal.

Landscape images should represent both urban and rural settings around the world.

Please avoid:

- Images that look staged.
- Images that use artificial lighting. Natural light is best.
- Images that use brand logos or words.
- Images that include offensive hand gestures. Hand gestures can hold different meanings across cultures.
